Brief explanation of the questions to the interviewees:

Tell them to give short answers with explanations and / or short reason for their point of view (part A).

Everything has to be filmed, so the interviews should be carried out in pairs.

The first section should be dealt with very quickly. More time should be given to the subsequent questions, especially from section A) on.

The entire interview should not exceed 10 minutes! Think about transcripts and translations!

Please film 2 interviews per age group. $3 \times 2 = 6!$
